Wired Zoning Sensor with Display

As part of your zoning system, the Wired Zoning Sensor with Display acts as both a sensor and a thermostat by allowing you to monitor and adjust the temperature in one specific zone. It can also share data with, and receive commands from, the Platinum ZV Control, ensuring consistent, even comfort in each zone of your home.

Wired Zone Sensor without Display

The Wired Zoning Sensor without Display monitors temperature within a specific zone, while only allowing temperature adjustments at the Platinum ZV Control—perfect for a child's room or hallway. When the sensor indicates the need, heated or cooled air is directed to the necessary zone for unprecedented comfort.

American Standard Heating & Air Conditioning Reliability

You can always rely on American Standard for a system built to deliver quality heating and cooling during your most precious moments. Since 1881, we've built our brand on providing comfort and long-lasting reliability for families everywhere.

Let us share some of our most celebrated moments:

Most Reliable

Among Air Conditioners and Heat Pumps Readers of a national product-testing and research magazine rated American Standard air conditioners and heat pumps as the most reliable brand among leading manufacturers.

Dependable Through and Through

Approximately 500 furnace installers and more than 35,000 consumers named American Standard Heating & Air Conditioning one of the only two brands voted more reliable than average by readers of a national product-testing magazine.

AccuClean™ Makes the Grade

Our AccuClean™ Whole-Home Air Filtration System was given a top ranking by readers of a national product-testing application.

Best Buy in Home Comfort

In the Home Comfort Buying Guide of June 1998, *Consumer's Digest* magazine ranked the Allegiance® 16 and Allegiance® 14 air conditioners among the "Best Buys" in central air conditioning systems.

Fifth Year Running

American Standard was ranked highest in overall dealer satisfaction for the fifth time, after winning in **2006, 2007, 2008** and **2010***.

Number One in Reliable Performance

Rated the best trouble-free heating, ventilation and air conditioning brand among 14 leading manufacturers by readers of a national product-testing publication.

Best of 12

Readers of a national product-testing magazine rated our gas furnaces as the most reliable brand among 12 leading manufacturers.

Mobile Quarantine Facility

American Standard helped NASA design a smart indoor environment for the returning Apollo astronauts, providing a clean and comfortable indoor environment full of fresh air for American heroes.
