Connect to your thermostat your way

Redefining control and comfort

It's time to rethink everything you know about thermostats. Lennox' new icomfort Wi-Fi™ is a brilliant piece of technology that demonstrates just how committed Lennox is to innovation. And to your comfort. When connected to your home wireless network, it opens up a whole new world of convenience and control, including the ability to monitor and adjust your temperature from anywhere in the world. Once connected to the Cloud through your wireless network, your icomfort Wi-Fi can be controlled from anywhere in the world via your smartphone, tablet, laptop or other web-enabled device.

The icomfort App

Free to download for Apple and Android devices, the icomfort App is like a touchscreen window into your home comfort. Whether you're on the road or on the couch, simply start the app to check and change your temperature with only a finger.

The center of everything

When paired with premium Lennox® equipment, icomfort Wi-Fi effortlessly coordinates communication between every component of the system, optimizing energy use and comfort while maintaining your home's temperature with an accuracy of .5 degree. So you enjoy the highest level of comfort Lennox has to offer.

Custom ability to blend in

Customizable skin option allows you to cover and protect the thermostat interface with any photo or artwork you prefer. You can also choose a color to blend in with your décor or the thermostat screensaver.

Highlights

Remote access.

Control your thermostat from anywhere in the world via your smartphone, tablet, laptop or other web-enabled device.

One-Touch Away mode.

Reduces system use and energy consumption when no one is home.

Alerts and

reminders. Monitors the system with advanced diagnostics and sends you and your dealer emails if the system needs service or maintenance.

Weather data.

Displays live weather alerts and a five-day forecast.

Touchscreen operation.

Bright, clear screen is easy to read in any light, and easy to operate.

Balanced air quality.

Works with your Lennox® system to carefully control both temperature and humidity.

Peace of mind.

Backed by a 5-year limited warranty.

Your online interface to advanced capabilities.

The icomfort Dashboard

This powerful website is the central command for your icomfort Wi-Fi, giving you access to the most detailed features and information in one convenient location. Once installed and registered, simply log on to www.myicomfort.com/dashboard and you'll have everything at your fingertips.

My Account – During the installation of your icomfort Wi-Fi,™ you'll create an online account to help manage and control every icomfort Wi-Fi you own. On the My Account screen, you'll have the ability to add and edit personal information and dealer information for each icomfort Wi-Fi you own.

Home(s) – This screen allows you to select which of your installed icomfort Wi-Fis you'd like to monitor or adjust, while giving you the ability to add additional icomfort Wi-Fi thermostats for different rooms or additional homes.

Current Indoor Temperature and Humidity – Check and adjust either setting with just a click or touch.

Away Mode – Easily sets your icomfort Wi-Fi to an energy-saving One-Touch Away Mode, so you don't waste energy heating and cooling an empty home.

Program – Set your icomfort Wi-Fi to a predefined schedule based on the season, or control the temperature manually.

Forecast – Check the five-day weather forecast.

Skins – Change the screensaver to a family photo, artwork or any color to blend in with your decor.

System – View or edit information about the system to which your icomfort Wi-Fi is connected.

Service Information – Edit information about your dealer, or email your dealer with questions or comments.

Alerts and Reminders – Stay on top of your system status by viewing any alerts or reminders for needed maintenance or service.

Easy-to-use touchscreen thermostat

Comfort at your fingertips

Lennox' ComfortSense® 7000 Series touchscreen thermostat makes controlling your home's comfort so simple! With its intuitive touchscreen operation and flexible programming options, the ComfortSense 7000 thermostat is loaded with features designed to enhance your family's comfort and your heating and cooling system's performance. The ComfortSense 7000 thermostat helps you conserve energy, too, and that can reduce utility costs.

Precision temperature and humidity control

Typical thermostats allow wide temperature swings that can make your home either too hot or too cold. The ComfortSense 7000 thermostat makes it easy to maintain perfect temperature control, so your home always feels just right.

Temperature Swing Comparison

Humidity levels in your home are easy to control with the ComfortSense thermostat. Using the touchscreen, you simply set the humidity levels that are most comfortable for you. Then the thermostat works with your furnace, air conditioner and humidifier to add or remove moisture as needed.

Highlights

Ease of use. Large, touchscreen display is easy to read and simple to program.

Improved comfort. Flexible programming options let you design a heating and cooling schedule to match your family's lifestyle.

Optimal performance. On-screen reminders tell you when it's time for routine service or maintenance.

Peace of mind. Backed by a 5-year limited warranty.

Programmable touchscreen thermostat

Effortless, efficient temperature control

Menu-driven programming screens with flashing prompts and up-and-down arrows allow you to easily customize comfort settings for your home. The ComfortSense® 5000 Series thermostat is compatible with almost any heating and cooling system.

Remote programming

Flexible in use and application, the thermostat mounts directly to a wall, but can be easily removed for remote programming. Optional battery power ensures continuous operation during power outages.

Highlights

Ease of use.

Touchscreen operation makes programming quick and simple.

Convenience.

Remote capability allows wall or armchair programming.

Peace of mind.

Backed by a 5-year limited warranty.

Programmable & non-programmable thermostats

Accurate temperature control

ComfortSense 3000 Series thermostats offer easy-to-use control at a good price. Five-day/two-day programming allows you to customize a temperature schedule for the weekdays and weekend, with up to two time periods per day. A non-programmable model is available for ease of use in basic applications.

Easy to read and use

Large rubber buttons and a backlit display allow you to find the right setting, day or night. Once you've entered your settings, the thermostat accurately maintains the desired temperature.

Highlights

Ease of use. Backlit display and large buttons make the unit simple to operate.

Enhanced comfort. Advanced electronics deliver precise temperature control.

Peace of mind.

Backed by a 2-year limited warranty.

Customized comfort for every corner of your home

Exceptional comfort

The Harmony III™ zoning system divides your home into up to four separate climate zones for the ultimate in home comfort. Designed for use with advanced heating and cooling systems, this system provides the desired temperature in each zone.

Optimal efficiency

When properly configured, the Harmony III zoning system can help to reduce your utility bills. It heats and cools only the rooms you are using, so it saves you money all year.

Highlights

Enhanced comfort.

Four-area zoning allows you to customize your comfort according to household needs.

Convenience.

Easy-to-use control panel makes it simple to adjust temperature and airflow throughout your home.

Savings. Reduces energy usage to save you money on utility bills all year long.

Peace of mind.

Backed by a 2-year limited warranty on covered components.

As illustrated by the example at left, the Harmony III zoning system gives you complete control over heating and cooling your home.

- Zone 1** – Seldom-used upstairs bedroom (needs little heat or cooling)
- Zone 2** – Children's upstairs bedroom (high heat in the summer requires additional air conditioning)
- Zone 3** – Home office or exercise room
- Zone 4** – Family room (high-activity area needs extra air conditioning)

LZP-4 Zoning System

Room-by-room comfort control

Precise comfort

The LZP-4 zoning system works with standard heating and cooling systems to meet your home's specific comfort needs in up to four zones. It's like having an individual heating and cooling system for each living area.

Outstanding energy savings

The LZP-4 not only maximizes your comfort—it also saves you money, year after year. That's because you no longer have to pay to heat or cool areas of your home you rarely use.

Highlights

Enhanced comfort. Four-area zoning gives you greater control over your home's heating and cooling.

Savings. Reduced energy costs result from not having to constantly heat or cool rarely used rooms.

Peace of mind. Backed by a 2-year limited warranty.

LZP-2 Zoning System

Two-zone heating and cooling

Enhanced flexibility and control

The LZP-2 lets you divide your home into two separate zones. So if you have an upstairs floor that's always too hot, the LZP-2 lets you adjust heating or cooling in that area, without affecting the comfort of your downstairs living area.

Year-round energy savings

The LZP-2 can substantially reduce your energy costs when used with a programmable thermostat. The savings can translate to hundreds of dollars over the life of the system.

Highlights

Enhanced comfort. Two-area zoning gives you greater control over heating and cooling needs of your home.

Savings. Reduced energy usage can save you hundreds of dollars over the life of the system.

Peace of mind. Backed by a 2-year limited warranty.
